

Guillaume d'Argent

I have more than 3 years of experience as Consultant. Thanks to my strong analytical and communication skills, I gained a great number of insights, knowledge, and skills in data analysis, business/functional analysis and project management.. I can evolve in a multicultural, multilingual, and multidisciplinary environment.

I leverages these soft and hard skills to be an excellent data, business and process analyst. In the future, I can capitalize on my experiences to become a project manager or strategy analyst.
